

Patio Series Garden Light

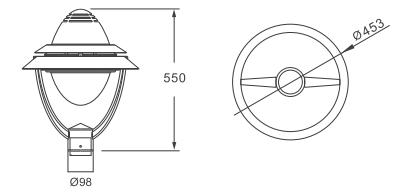

IP 65 Working Temp -40°C~85°C Working Humidity < 95%

Description

Patio features olive-shape design for outdoor landscape and functional lighting with highly efficient and top brand LED technology. The die-casting aluminum heat sink enhances optimal heat dissipation and premium lighting efficiency with power options up to 75w.

It provides a wide coverage light distribution for area lighting with fast convenient post top installation. It can also be solar powered in the off-grid areas such as park, courtyard and parking lot etc.
