

# Villa Series Garden Light

## Description

With a stylish body designed with elegance for different applications in mind, Villa has high-quality light, excellent color rendering index and optimal energy efficiency. Satisfies with squares, pedestrian areas, parks, urban roads, residential streets as well as cycle-paths lightings.

Its modular design makes needed power and lumens flexible, the future maintenance could be simple and easy, and its optional solar solution can help achieving tremendous extra energy savings.

IP 65

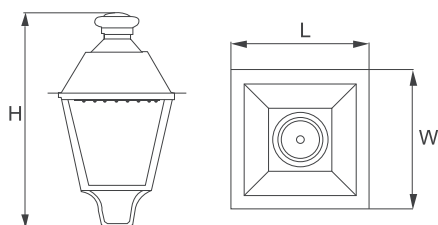

Working Temp  
-40°C~55°C

Working Humidity  
≤ 95%

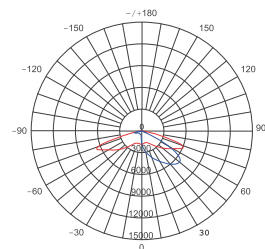

## Ordering Information

Name	Model	Power(W)	Q'ty of LEDs	Flux(lm)	Input Voltage	CCT/Color	ControlSystem	Dimension(mm)
Villa	CL5671/AU5671	31	1×14	3,100	AC220-240V AC120-277V	4,000K (Options: 3,000K and 5,000K)	Without	L440×W440×H800
	CL5672/AU5672	62	2×14	6,200				L440×W440×H800
